LIST OF THE VISITING COMMITTEE, 1914.

- Mr. M. C. BONSOR (*Vice-Chairman*), The Corner House, Tadworth.
 Lt.-Col. the Hon. A. G. BRODRICK, 18, Eaton Square, London, S.W.
 Mr. F. CAMPBELL-BAYARD, Vanbrugh, Alcester Road, Wallington.
 Sir ARTHUR W. CHAPMAN, 51, Whitehall Court, S.W.
 Sir E. F. COATES, Bart., M.P., Queen Anne's Lodge, Queen Anne's Gate.
 Mr. J. D. DREWETT, Ravensbury, Mitcham, Surrey.
 Mr. C. B. EDGAR, Wedderlie, Queen's Road, Richmond.
 Mr. H. M. ELLIS (*Chairman*), Beverley Wood, Coombe, Kingston.
 Mr. T. M. FAVELL, Fairwood, Pine Grove, Weybridge.
 The Rev. W. R. FINLAY, Ribblesdale, Horsham Road, Dorking.
 Col. E. A. FITZROY, Hale Place, Farnham.
 Mr. W. G. DE F. GARLAND, Farris, East Molesey.
 Mr. G. C. GARRICK, Trashurst, Dorking.
 Mr. W. G. HEATH, The Outlook, Guildford.
 Mr. J. T. HELBY, Glengarriff, Cobham.
 Mr. P. G. HENRIQUES, Normandy Park, Guildford.
 Mr. G. R. HUNT, Coppice Lea, Merstham.
 Capt. H. C. JEDDERE-FISHER, Apsleytown, Dormansland.
 Sir HUBERT H. LONGMAN, Bart., Lavershot Hall, Windlesham.
 Mr. A. MIZEN, Brook Cottage, Mitcham.
 Mr. J. MORRISON, 23, St. Mary's Grove, Richmond.
 Mr. A. J. NASH, 41, Castle Street, Farnham.
 Mr. E. H. RICKARDS, Blythburgh, Grosvenor Avenue, Wallington.
 Mr. J. H. McA. RYAN, 6, North View, Wimbledon.
 Mr. E. W. SHIPTON, Morwenstow, Woking.
 Mr. H. OSWALD SMITH, M.B., Lauderdale, Sanderstead.
 Mr. D. SPARVELL, Belmont, Camberley.
 Mr. S. W. G. TRINGHAM, Hillside, Longcross, Chertsey.
 Mr. P. G. W. TYPKE, Lawn House, Sycamore Grove, New Malden.

 Mr. E. W. SHIPTON.
 Mr. D. SPARVELL (*Chairman*).

LIST OF OFFICIALS, 1914.

BROOKWOOD ASYLUM.

Medical Superintendent :

J. A. LOWRY, M.D.

Senior Assistant Medical Officer :

P. C. COOMBES, M.R.C.S., L.R.C.P.

Second Assistant Medical Officer :

H. T. JONES, M.B., M.R.C.S., L.R.C.P.

Third Assistant Medical Officer :

R. F. B. BOWES, M.R.C.S.

Chaplain : Rev. T. LANCASTER.

Asylum Clerk and Steward : Mr. M. HALLAM.

Matron : Miss I. Y. RUTHERFORD.

Chief Attendant : Mr. H. LOWE.

NETHERNE ASYLUM.

Medical Superintendent :

F. C. GAYTON, M.D., M.R.C.S.

Senior Assistant Medical Officer :

L. M. WEBBER, M.R.C.S., L.R.C.P.

Junior Assistant Medical Officer :

(Vacant.)

*Chaplain :—*Rev. F. H. ROBERTS.

*Asylum Clerk and Steward :—*Mr. A. V. BAKER.

*Head Attendant :—*Mr. E. WEST.

*Matron :—*Miss RAY.

R. A. HODGES, *Clerk to the Committee.*

SURREY COUNTY ASYLUMS.

Annual Report of the Visiting Committee

(Pursuant to the Lunacy Act 1890, Sec. 190.)

*Presented to the County Council at their Meeting held on
the 9th day of November, 1915.*

To the County Council of Surrey.

The Visiting Committee submit their Report for the year ended 31st December, 1914, together with the audited accounts to 31st March, 1915.

1. The state and condition of the Asylums are satisfactory, several improvements have been made during the year which are set out in detail in the Financial Statements and Medical Superintendent's Reports. The most important improvement was that carried out at the Brookwood Asylum, where the centralized system of heating, lighting and power was completed and brought into operation, with the result that the quantity of steam coal consumed during the year shewed a saving of 1,236 tons on that consumed the previous year and with increased efficiency.

2. The accomodation of the two Asylums is as follows :—
Brookwood 1,518, Netherne 960, a total of 2,478 beds, which appears to be sufficient for normal requirements. On the 1st January, 1915, there were 243 "out-county" patients.

3. The management of the Asylums, the conduct of the officers and servants, as well as the care of the patients, is perfectly satisfactory, which opinion is confirmed by the reports of commissioners of the Board of Control at their visitations to the Asylums made during the year. (*Vide* Appendices III. and VI., pp. 22 and 36).

The numerical changes that have taken place among the patients are as follows :—

4. **BROOKWOOD ASYLUM.**

Remaining, Dec. 31, 1913.		Since admitted.		Discharged recovered.		Removed, etc.		Died.		Remaining, Dec. 31, 1914.	
M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
537	713	132	180	30	32	22	27	62	54	555	780
1250		312		62		49		116		1335	

5. **NETHERNE ASYLUM.**

Remaining, Dec. 31, 1913.		Since admitted.		Discharged recovered.		Removed, etc.		Died.		Remaining, Dec. 31, 1914.	
M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
350	546	101	147	22	49	40	50	23	39	366	555
896		248		71		90		62		921	

6. The total number of deaths was 178, compared with 158 for the previous year. The number of "recovered" cases was 133 as compared with 134.

7. It is satisfactory to note that although the population of the county has increased, the number of admissions to the two Asylums during the year has shewn a reduction of 24 over the previous year. It is hoped that this indicates a decrease in insanity. There was, however, an increase in the number of inmates in the Asylums of 110 on the 31st December, 1914, due to the fact that there were not so many discharges. A considerable number of the admissions were cases of senile decay. It is a debateable question whether in the interests of these poor people, whether it would not be better to retain them in the infirmaries near their own homes and relations.

8. Up to the 31st December, 1914, 35 members of the Brookwood Staff and 35 members of the Netherne Staff have joined His Majesty's Forces. It is with great regret that the Committee record the death of Dr. Crowther, who was killed in action in November last, and was to have succeeded Dr. Gayton as Medical Superintendent of Netherne Asylum at the end of the year. Miss Ray, matron of Netherne Asylum, resigned on the 31st December. Both these vacancies have since been filled. Owing to shortage of staff and to the employment of so many temporary hands it has entailed much extra work and responsibility on those remaining.

9. During the year it was thought advisable on the recommendation of the Medical Superintendents to appoint a dentist at each of the Institutions, and so far the appointments have justified themselves.

10. The average weekly cost per head at Brookwood was 11s. 2½d., as against 11s. 0d. for 1913-14, and for Netherne nearly 11s. 6½d., as against 11s. 6¼d., the charge to the

Unions was 10s. 6d. per head throughout the year, as compared with an average of 10s. 11½d. in the previous year. In consequence of the increased prices of all commodities, the rate has since been increased.

11. The superannuation allowances to officers and others has become a serious charge, the amount shown under this head last year was £1,797 19s. 3d.

12. The following items of expenditure which appeared in the financial statements are worthy of attention :—

	Brookwood.			Netherne.		
	£	s.	d.	£	s.	d.
Ordinary repairs	4,274	7	7	3,909	11	4
Additions, Alterations and Improvements (under £400).	360	6	9	332	1	11
New buildings (voted by County Council). ...	1,289	7	7			
Other payments in connec- tion with building and repairs, most of which are on capital account	2,180	2	3	2,814	11	5

13. The Farm and Garden Account which appears in Appendix VII. (p. 86) shows that the profit (excluding value of patient labour) at Brookwood was £701 7s. 6d., and that at Netherne £365 8s. 11d. Inasmuch as the two accounts are not made up on the same basis, there cannot be any comparison, but if the items charged in the Brookwood account and not shown in the Netherne account were eliminated, in the former the result would be a profit of £1,206 12s. 0d., instead of £701 7s. 6d.

14. The Asylums have been inspected regularly at each meeting of the Standing Sub-Committees, and several visits have been made by members of the Committee between the usual days of meeting.

The following is a record of the attendances of the members of the Committees during the year:—

Name.	Visiting Committee. (9 meetings.)		Sub-Committees. (50 meetings.)	
	Attended.		Summoned.	Attended.
Chapman	7		6	6
Edgar	4		6	1
Coates	—		—	—

* On Active Service.

† On War Service.

15. The accounts of both Asylums for the year ended 31st March, 1915, have been audited by the District Auditor, and

his reports are annexed hereto (Appendices I. and IV., pp. 12 and 25), also the reports of the Medical Superintendents for the year 1914 (Appendices II. and V., pp. 15 and 28) and of the Commissioners of the Board of Control (Appendices III. and VI., pp. 22 and 36).

16. The Committee cannot conclude the Report without placing on record their appreciation of the services rendered by the Medical Superintendents, their respective staffs, and other officers in the discharge of their duties which must be of a monotonous and dispiriting character.

Signed on behalf of the Committee, this 29th day of October, 1915.

J. T. HELBY,

Chairman.

APPENDIX I.

SOUTH-EASTERN COUNTIES AUDIT DISTRICT.

51, RUSSELL ROAD,

KENSINGTON, W.,

28th June, 1915.

*To the Visiting Committee of the
Surrey County Lunatic Asylum, Brookwood.*

GENTLEMEN,

I have completed the Audit of your Accounts and of those of your Officers in respect of the Asylums at Brookwood and Netherne.

I made no disallowance or surcharge.

Some remarks which I have to offer apply to both Asylums. They concern the arrangements made by the Committee with respect to payments and allowances made to the Asylum Officers who have joined His Majesty's Forces, and to divers contracts for supplies as affected by the War.

I have not interfered with the payments under the Scale which the Committee have thought fit to adopt with respect to their Officers who have joined the Army. The present crisis renders it imperative not to hamper local authorities by the application of rigid rules which may be rightly enforced in normal times, and not to restrict the freedom of public bodies in their dealings with their staff. I think, however, that the Committee should keep before them for their guidance the general rule that their Officers who have been granted leave to serve in the King's Forces should not in the aggregate receive more than their full civil pay in the posts from which they are temporarily absent. This principle has not always been kept in view, and there would appear to be cases where married officers with children are, taking Military pay and the Committee's pay together, receiving more than their normal civil salary.

I noticed certain cases where, owing to the delay in the notification of an officer's death in action, an overpayment had been made to his nominee. In one or two cases the nominee appeared to be a

dependant in poor circumstances, and I allowed small overpayments as being in the circumstances unavoidable. In the case, however, of the late Dr. Crowther, of Netherne Asylum, an overpayment of £8 19s. 9d. was, at my suggestion, recovered from his nominee.

The above remarks apply to the terms made by the Committee with their officers. Any payments which it may be proposed to make to the widows and dependants of deceased officers would be determined by a different set of considerations.

In dealing with the payments made by the Committee to contractors for supplies by way of relief from the burden of enhanced prices in war time, it appeared, judging by the various sources of information available at the Audit, that the extra payments made by the Committee were fair and equitable and did not go beyond the current range of prices.

BROOKWOOD.

The Asylum accounts are very well kept, but as regards Provisions and Necessaries some amplification is desirable with a view to showing in summarised form in a book of account the consumption for the quarter or the year. At the present the consumption is shown in daily totals in the case of Provisions, and weekly as regards Necessaries; but in order to ascertain for purposes of comparison the quarterly or yearly totals it is necessary to abstract the daily or weekly amounts in respect of each article; and even if that be done with great labour the results would not be susceptible of comparison with corresponding totals of daily numbers and the quantities required by the dietary scale.

It is necessary that the daily and weekly totals be accumulated and summarised in a book of account at such periods and in such a way as to compare with the quantities required by the dietary in conjunction with the numbers for the given period.

The consumption of coal was as follows:—

				1914-15. Tons.	1913-14. Tons.
House Coal	537	472
Steam Coal	1957	3187

The consumption of electricity units was 81,989 as against 83,925 in the previous year.

The gas consumed amounted in thousands to 2,176 feet as against 2,873 feet in 1913-14.

The decrease in the consumption of steam coal, electric current and gas was due to the adoption of a different and centralised system of heating, lighting and power. The saving has proved a valuable set-off against the increase under other heads of maintenance owing to the war. The saving would have amounted perhaps to £300 more but for the enhanced price of coal owing to the War.

The expenditure under the following heads shows an increase over 1913-14:—

	1913-14. £	1914-15. £
Provisions	9,260	10,450
Salaries and Wages	11,855	12,715
Life Insurance of Employees in Army	—	242
Clothing	1,576	1,749
Furniture and Bedding ...	1,310	1,864

The increase in provisions is partly due to the increase of numbers—16,462 days—otherwise it is attributable to the increase of prices mainly in the last two quarters of the year. Salaries, etc., have risen owing, in some measure, to the duplication of staff, while the cost of life insurance is, of course, a new charge.

The yield of bread per sack of flour was about 390 lbs. as compared with 379 in the previous year.

The average weekly cost per head was nearly 11s. 2¼d. as against 11s. in 1913-14. The charge to the Unions was 10s. 6d. throughout the year, as compared with an average of 10s. 11¼d. in the previous year.

The Maintenance Fund balance was £20,005 as against £23,376 at the 31st March, 1914. The decrease is due mainly to the difference between the cost of maintenance and the Union charge, and to the transfer of £1,000 to Netherne Asylum.

I am, Gentlemen,

Your obedient Servant,

(Signed) SIDNEY JERROLD,

District Auditor.

APPENDIX II.

BROOKWOOD ASYLUM.

REPORT OF THE MEDICAL SUPERINTENDENT.

SIR AND GENTLEMEN,

I have the honour to present the 48th Annual Report of the Medical Superintendent, together with the usual Statistical Tables.

The numerical changes that have taken place among the patients are as follows:—

Remaining, Dec. 31, 191 8 ⁴		Since admitted.		Discharged recovered.		Removed, etc.		Died.		Remaining, Dec. 31, 191 8 ⁵	
M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
555	780	120	295	25	28	27	50	61	58	562	939
537	713	132	180	30	32	22	27	62	54	555	780
1335		415		53		77		119		1501	
1250		312		62		49		116		1335	

Total number of cases treated ... 1,562 1750

Average number resident ... 1,318 1447

ADMISSIONS.

The admissions during the year numbered ²⁴⁵312—¹²⁰132 males and ¹⁸⁰229 females;—the direct admissions numbered ²²⁵229 (against ²²⁹220 last year)—⁷⁴121 males and ¹³¹108 females; of this number 85 were deemed curable.

Table X. gives the chief ascertained causes of insanity in the admissions during the year.

The transfers from other asylums include ³50 female patients admitted under contract from the county of Middlesex, ¹1 female patient under contract from Hants County, and 20 male + 150 female patients from Asaphury Asylum for War Accommodation.

DISCHARGES.

~~Forty three~~ ⁵³ ~~Sixty two~~ patients—²⁵ ~~30~~ males and ²⁸ ~~52~~ females—were discharged as recovered, giving a recovery rate calculated on the direct admissions of ~~23.21~~ ^{26.87} per cent.

~~Forty one~~ ^{thirty six} cases were discharged as relieved, and ~~nineteen~~ as not improved.

Money allowances were granted to ^{six} ~~nine~~ of the discharged patients.

The discharges other than recoveries were disposed of as follows:—

Transferred to other asylums	35	17	✱
Discharged to the care of friends	37	28	✱
Discharged under Section 71 and removed to						
Germany ^{Discharged as a suitable case for Workhouse} 1 ¹						
Criminal discharged, sentence expired ... ^{delusion} 3 ¹						
Transferred from criminal to pauper class ... 2 ²						
Discharged, irregularity in admission ¹						

DEATHS.

One hundred and ^{nineteen} ~~sixteen~~ patients died—⁶¹ ~~52~~ males and ⁵⁸ ~~54~~ females—giving a death-rate of ^{8.22} ~~8.8~~ per cent., ~~the highest death rate here for the past five years.~~

Pulmonary tuberculosis was the cause of death in thirteen cases, ~~as against seventeen last year. The same number as last year.~~

Thirty-one patients died of senile decay, and ¹³ ~~twenty two~~ of general paralyzes of the insane, the respective figures in these conditions last year were ³¹ ~~seventeen~~ and ~~fifteen~~. ²²

~~Two inquests were held during the year:—~~

I. J.T. died six days after admission, was admitted with a recently healed wound on throat and at time of admission was suffering from pneumonia. A verdict of death from natural causes was returned.

II. G.B. committed suicide by drowning in the canal. The circumstances were fully reported to you at the time. A verdict of suicide while of unsound mind was returned; the jury adding a rider exonerating the Asylum staff from blame in the matter.

~~The cause of death was verified by post-mortem examination in 80 per cent. of the deaths.~~

WORKS DEPARTMENT.

The chief works carried out during the year are as follows:—

The centralisation of the steam plant has been completed, with very economical results.

A duplicate stoker engine with controls for actuating the mechanical stoker has been installed.

The new coke store has been completed and is now in use.

The old sewage outfall tanks have been demolished, new tanks erected remote from the building, and a new sewer laid thereto.

The sanitation of several of the cottages on the Asylum Estate has been overhauled and the cottages, where necessary, provided with dampproof courses; in some instances all the walls exposed to the weather have been rendered externally with cement.

The application of tar paving has been extended to two additional airing courts.

A new fish frying range has been fixed in the main kitchen, but owing to uncertain transit facilities has not been brought into use.

Two hundred wooden bedsteads have been superseded by iron bedsteads with wire mattresses.

New eyeletting and punching machines have been purchased for use in the shoemaker's shop, also a new wax-sewing machine.

The usual painting and cleaning has been done.

The plant and structure is in an efficient state of repair.

Works in Progress—

A new lodge is in course of erection.

The Asylum Estate proper is being protected by the erection of a corrugated iron fence.

GENERAL REMARKS.

Two epidemics of scarlet fever occurred during the year; the first extended from February 1st to the end of May; one male patient, one female patient and three of the female staff being affected. The second began in September and continued to the end of the year, eight patients being then isolated in Cottage Hospital; it was confined to the female side: 11 nurses and 30 patients contracting the disease. All cases recovered save two patients, one dying of scarlet fever and the other of tuberculosis, from which she had suffered previously.

One case of enteric fever occurred and ended fatally.

Two patients were operated on during the year: a man for strangulated hernia, and a woman for carcinoma of the breast; both operations were successful.

Three patients sustained fractures of bones; these were of a purely accidental nature, and good recoveries were obtained.

One female and two male patients escaped during the year, all were brought back to the Asylum after a short absence.

A dental room has been fitted up and a dentist appointed, who visits the Asylum twice weekly.

Two members of the Board of Control paid their annual visit to the Asylum on ~~May 4th and 5th.~~ ^{August 9th + 10th.} Their report is appended.

The conduct of the nursing staff has been good.

The usual medical lectures have been given: two nurses passed the preliminary and two the final examination of the Medico-Psychological Association.

The outbreak of war caused a very heavy drain on the male staff, 36 men having volunteered or been called up for service. It has not been possible to find substitutes for all these men and in consequence the staff is below normal strength. This has entailed, on those remaining behind, a very large increase of work, and I desire to express my satisfaction with the very willing and efficient way in which it has been performed.

Staff Changes.—Dr. H. T. Jones, the Second Assistant Medical Officer, resigned, and Dr. R. F. B. Bowes, the Third Assistant Medical Officer, was promoted to fill the vacancy. Dr. H. H. Kiddle has been appointed as a temporary medical officer.

Mr. F. E. Sowden has been appointed dispenser in place of Mr. C. Speller, resigned.

I regret to report that Attendant ~~Charles Quick~~ ^{Frank M. Gwynn}, serving with the ~~Northumberland Fusiliers~~ ^{Middlesex Regiment}, was killed in action on ~~November 12th.~~ ^{April 1918.}

To my colleagues, Dr. Coombes and Dr. Bowes, to Mr. Hallam and the other officers I desire to express my indebtedness.

I also desire to take this opportunity of thanking the Visiting Committee for their kind consideration and support during the year.

I have the honour to be,

Sir and Gentlemen,

Your most obedient Servant,

J. A. LOWRY, M.D.

CHAPLAIN'S REPORT FOR 1914.

*To the Chairman and Committee of the Surrey County Asylum,
Brookwood.*

GENTLEMEN,

I have the honour to submit my second Annual Report.

Daily Prayers and Sunday Services.—I much regret to report many serious but unavoidable interruptions in the usual routine of daily prayers and Sunday services. (The reasons, doubtless, appear in the Medical Superintendent's Report.) When permissible, however, prayers have been said daily in the recreation hall, and on Sundays in chapel the services have weekly been:—Holy Communion, Morning and Evening Prayers with Sermons, and two short services in Male Ward XI. and Female Ward IX., respectively. Latterly, I have been enabled to add an additional service in Female Ward Xe. On Christmas Day, Good Friday and the Annual Fête Day we also had services in chapel. With conditions never quite normal, it is difficult to strike a fair average of the number of patients in attendance, and such would scarcely be any criterion; but I think it may be claimed that the numbers are highly satisfactory and show considerable interest on the part of the patients.

Choir.—Last year I had reason to note the insufficiency of choristers: now, I am pleased to report that an immediate improvement was effected (the number at one time was quite doubled), but unfortunately the stress of circumstances has, for the present, again thrown us back. I recognise this as inevitable—men, in particular, can ill be spared from the wards—and I am afraid we must wait for less strenuous times before we can approach our ideal. To the few remaining old members I am much indebted. By your kindness in making a grant for the purpose, the choir had an enjoyable and much-appreciated excursion to Southsea on July 2nd.

Library.—Some considerable difficulty has been experienced in obtaining suitable literature with the last grant voted for the library. Over 500 volumes have, however, been acquired, and I am hoping to receive more. These were vitally needed, and though sufficient for immediate needs leave no margin for reserve supplies. Gifts, per Dr. Lowry, of a large quantity of illustrated periodicals, have been received, and proved most useful.

Visiting Wards, etc.—I have naturally been more limited than usual in this part of my duty, but have endeavoured to be reasonably accessible to both patients and staff, in the Wards and wherever they congregate, to our mutual pleasure.

It will be inferred from the general tenor of this report that the year has been notable chiefly for misfortunes and difficulties (so far as the Chaplain's department is concerned at any rate), and though, apart from freedom from epidemics, immediate improvements in prospects are not to be looked for—one can only pray that life both inside and outside the Asylum may be restored to the normal much sooner than appearances indicate.

I have the honour to be,

Gentlemen,

Your obedient servant,

THOMAS LANCASTER.

April, 1915.

CATHOLIC CHAPLAIN'S REPORT, 1914.

ST. DUNSTAN'S,

WOKING,

April, 1915.

GENTLEMEN,

I have the honour to present my Annual Report as Catholic Visiting Priest to the Brookwood Asylum.

The number of Roman Catholic patients in the Asylum is about the same, the attendance of female patients at the various services being slightly higher than that of the males.

Owing to the outbreak of scarlet fever the services were suspended for a time. At all times a good average attendance has been maintained, and the earnestness of the patients and their response leaves nothing to be desired.

In my duties I have received every kindness and attention from Medical Superintendent, Officers, Matron and Staff.

I have the honour to be,

Gentlemen,

Your obedient Servant,

F. E. PRITCHARD.

APPENDIX III.

REPORT OF COMMISSIONERS OF THE BOARD OF CONTROL.

SURREY ASYLUM,

BROOKWOOD,

5th May, 1914.

Between the 5th December, 1913, when the last visit was paid by Commissioners in Lunacy to this Asylum, and the commencement of our inspection yesterday, the following changes have occurred among the patients:—

Admitted	149
Discharged or removed	49
	of whom had recovered	28
Died	60

the result being that there remained on the books the names of 1,302, of whom 538 are males and 764 females. Two women were absent on trial, and one was in the Isolation Hospital suffering from scarlet fever; with these exceptions, we saw all the patients. Eight are criminal lunatics; the rest are of the pauper class, of whom 104 (all females) are received under contract; namely, 30 from West Ham, 24 from Hants, and 50 from Middlesex, and 3 other women and one man are chargeable to out-county unions. The estimated accommodation shows vacancies for 7 men and 58 women. The weekly maintenance charge for home cases is 10s. 6d.

The most important of the improvements effected during the period under review has been the practical completion of the new central generating station for electric light, which it is hoped will effect a considerable economy in working. One feature is that the exhaust steam hitherto wasted will be utilised to heat the water required for all purposes, and is expected to be fully sufficient to meet the demands of the Asylum. Other minor improvements have been made or are in progress. The fencing is defective at some parts of the boundary of the estate, giving opportunity for trespassing; the Committee contemplate putting it in repair where necessary, and also restricting the means of access to one main entrance gate where there will be a lodge with someone in charge to prevent unauthorised intrusion. This we regard as highly desirable.

Our Board having been consulted with reference to a proposal for the appropriation of the Dairy Farm, consisting of about 82 acres, to form the site of a phthisical sanatorium to be provided by the

County Council, we made an inspection of the land with Dr. Lowry and the farm bailiff, with the result that we cannot report in favour of the proposal, which we think would be disadvantageous to the Asylum both from the point of view of economy, and in the interests of the patients. It would seriously reduce the estate, and would cut off land of the best quality.

We found the patients in satisfactory condition as regards their dress and personal tidiness; and they were generally contented and made but few complaints. Their conduct was quiet and orderly except in one ward on the female side for the more turbulent cases, where there was a good deal of noise; but this was attributable to the fact that the nurse had, in spite of orders to the contrary, collected the patients into one room with a view to our inspection.

The wards and buildings generally were in excellent order throughout, and it was creditable to the staff that this was particularly noticeable in outlying parts and not confined to those chiefly in evidence. The beds and bedding were also very good and well kept.

The following are matters which we think deserving of attention. The ventilation of the single rooms would be improved by the fitting of wire gauze panels in the upper part of the shutters, and that of the infirmaries if the upper sashes were made to open to the full extent and the aperture protected by light guards, as we explained to Dr. Lowry. The library has received attention and arrangements made for additions to it, but we would suggest that more should be done in binding illustrated papers, which provide interest for many patients who would not occupy themselves with reading books.

Dinner of salt beef with two vegetables was served in our presence yesterday; the fare appeared to give satisfaction and the plates were well warmed. We are glad to hear that apparatus for frying fish is to be introduced and that the Committee are considering the dietary with a view to making it more varied.

The airing courts are very well kept and laid out; some of the paths, however, are very rough and we are glad to see that a commencement has been made in rendering them smoother and more pleasant to walk upon.

We gave a fire alarm in Female Ward 10C. The nurse whom we directed to raise it acted promptly, and though the buzzer, through some defect, was not as audible as it ought to be, a good jet of water was playing on the roof within six minutes.

No use of mechanical restraint or seclusion has been recorded during the period with which we are concerned.

From the statistical returns for 1913, we learn that there was during the year a good average attendance at the Sunday services in the chapel, but a poor attendance at the weekly entertainments. No patients were taken for walks beyond the estate; and the percentage of those taken for daily walks on the estate was still low, and that of those wholly confined to wards and airing courts high. The proportion of men usefully employed was nearly up to the average, that of the women much below. We think that many more of the latter might be given work in the laundry.

Three inquests have been held. One was on a man who before admission had cut his throat; another on a woman who had swallowed a corrosive poison, also before admission, and the third on a woman who was found by post-mortem to have a needle embedded in the muscular tissue of the heart, which it was known she had herself thrust into that organ at another institution a long time before her death. The needle had no relation to the cause of death, which was from gastro-enteritis.

The rest of the deaths were all the result of natural causes, verified in the satisfactory proportion of 85 per cent. by autopsy. Over 18 per cent. of the deaths were due to senile decay, and 16·6 to general paralysis.

The patients generally presented a healthy, well-nourished appearance. Only 4 per cent. of them were confined to bed. They included the woman in the infectious hospital with scarlet fever, a man who is convalescing from enteric fever, and a woman who a few weeks ago sustained in an accidental fall the only serious injury, namely, an intra-capsular fracture of the femur, which has occurred during the period under review. Three members of the female staff and a male patient have suffered from mild scarlet fever, in addition to the woman above referred to; but there has been no other case of enteric fever besides the one mentioned.

The staff of nurses and attendants is of adequate strength except perhaps as regards those on night duty on the female side; and their record of service is good. Twenty-five per cent. of the men and 5 per cent. of the women at the end of the year held the nursing certificate of the Medico-Psychological Association; an allowance of £1 a year is made to those holding the certificate.

The case books and other medical records continue to be well kept.

(Signed) L. L. SHADWELL,	}	<i>Commissioners of the Board of Control.</i>
E. MARRIOTT COOKE,		

APPENDIX IV.

SOUTH-EASTERN COUNTIES AUDIT DISTRICT.

51, RUSSELL ROAD,

KENSINGTON, W.,

28th June, 1915.

*To the Visiting Committee of the
Surrey County Lunatic Asylum, Netherne.*

GENTLEMEN,

I have completed the Audit of your Accounts and of those of your Officers in respect of the Asylums at Brookwood and Netherne.

I made no disallowance or surcharge.

Some remarks which I have to offer apply to both Asylums. They concern the arrangements made by the Committee with respect to payments and allowances made to the Asylum Officers who have joined His Majesty's Forces, and to divers contracts for supplies as affected by the War.

I have not interfered with the payments under the Scale which the Committee have thought fit to adopt with respect to their Officers who have joined the Army. The present crisis renders it imperative not to hamper local authorities by the application of rigid rules which may be rightly enforced in normal times, and not to restrict the freedom of public bodies in their dealings with their staff. I think, however, that the Committee should keep before them for their guidance the general rule that their officers who have been granted leave to serve in the King's Forces should not in the aggregate receive more than their full civil pay in the posts from which they are temporarily absent. This principle has not always been kept in view, and there would appear to be cases where married officers with children are, taking Military pay and the Committee's pay together, receiving more than their normal civil salary.

I noticed certain cases where, owing to the delay in the notification of an officer's death in action, an overpayment had been made to his nominee. In one or two cases the nominee appeared to be a dependant in poor circumstances, and I allowed small overpayments as being in the circumstances unavoidable. In the case, however, of the late Dr. Crowther, of Netherne Asylum, an overpayment of £8 19s. 9d. was, at my suggestion, recovered from his nominee.

The above remarks apply to the terms made by the Committee with their officers. Any payments which it may be proposed to make to the widows and dependants of deceased officers would be determined by a different set of considerations.

In dealing with the payments made by the Committee to contractors for supplies by way of relief from the burden of enhanced prices in war time, it appeared, judging by the various sources of information available at the Audit, that the extra payments made by the Committee were fair and equitable and did not go beyond the current range of prices.

NETHERNE.

In the case of Officers on military service, the Committee at first deducted from the half-pay and emoluments which they paid to them the superannuation contribution.

When, in November, they believed that the period of absence on military service could not be reckoned as service for superannuation purposes they returned to the Officers concerned the amounts which they had deducted. When they subsequently learnt that the period of military service might be reckoned for superannuation purposes, they reverted to the plan of deducting superannuation contributions, but they did not claim from the Officers affected the superannuation contributions which had been returned to them. Attention was drawn to this omission at the Audit, and I understand that the contributions will be recovered by adjustment.

The net expenditure on maintenance account was £28,054 3s. 0d., as against £27,079 5s. 0d. in 1913-14. Some of the heads of increase are shown below:—

			1913-4. £	1914-15. £
Provisions	8,036	8,614
Necessaries	4,289	4,328
Salaries and Wages	9,216	10,077

The rise in provisions is largely due to an increase in numbers, and only very slightly to the War.

Wages and Salaries have been somewhat affected by extra payments due to the War.

The average weekly cost of maintenance was 11s. 6·367d. as compared with 11s. 6·247d. for 1913-14. The average weekly charge to the Unions was 10s. 6d. The loss entailed by the difference was £2,507.

The maintenance balance was £15,005 5s. 4d., as against £16,492 3s. 11d. at the 31st March, 1914. The reduction plus £1,000 received from Brookwood almost equal the loss on the charge to the Unions.

The consumption of steam coal was 1,923 tons as against 1,878 in 1913-14; on the other hand the coke used was 260 tons as compared with 427 tons in the previous year, the difference being due to a change in the heating system.

I am, Gentlemen,

Your obedient Servant,

(Signed) SIDNEY JERROLD,

District Auditor.

APPENDIX V.

NETHERNE ASYLUM.

REPORT OF THE MEDICAL SUPERINTENDENT.

SURREY COUNTY ASYLUM

NETHERNE,

MERSTHAM.

March, 1915.

GENTLEMEN,

I have the honour to submit the 6th Annual Report of the Medical Superintendent, for the year 1914, together with the usual statistical tables. The following summary shows the numerical changes in the patients:—

Remaining in the Asylum on Dec. 31st, 1913:—	M.		F.		T.
Rate Supported	318	...	492	...	810
Private	32	...	54	...	86
Admitted during 1914	101	...	147	...	248
Total number under Treatment	451	...	693	...	1144
Discharged during 1914:—					
Recovered	22	...	49	...	71
Relieved	8	...	7	...	15
Not Improved	30	...	43	...	73
Not Insane	2	...	—	...	2
Died	23	...	39	...	62
Remaining in the Asylum on Dec. 31st, 1914:—					
Rate Supported	325	...	501	...	826
Private	41	...	54	...	95
Total	366	...	555	...	921
Average number resident	367	...	563	...	930

The Admissions.—These numbered 248, or excluding transfers from class to class, 231. The Direct Admissions numbered 189, 77 males and 112 females. Of the Direct Admissions the 1st attack cases numbered 109 or 57·6 per cent., as compared with 60·3 per cent. of last year, and 63·5 per cent. the average of the past 5 years. This appears to indicate a slight decrease in Insanity in this part of the County. The chief Aetiological Factors were:—

Heredity 14·2 per cent.
 Senility 12·9 per cent.
 Syphilis 4·7 per cent.
 and Alcohol 4·7 per cent.

In 42·4 per cent. of the cases, owing to defective history, no cause was ascertained.

Of the Admissions 52 were cases of Recurrent Insanity, 26 of Chronic Insanity and 36 of Congenital Mental Deficiency.

15 persons or 6·4 per cent, had previously “recovered” in this Asylum, and 31 or 13·4 per cent. were over 65 years of age. Two persons were found “not insane” on admission. Of the Direct Admissions 55·5 per cent. were admitted within one month of the disorder being recognised.

The approximate number of recoverable cases was considered to be 121.

The Discharges.—During the year 144 patients were discharged, of whom 71 were discharged “Recovered,” 14 “Relieved,” 57 “Not Improved,” and 2 “Not Insane.” These do not include transfers from class to class.

The Recovery Rate on the Direct Admissions was 37·56 per cent. and on cases deemed “Recoverable” 58·6 per cent.

The Recoveries included 22 men or 28·57 per cent. and 49 women or 43·75 per cent.

44 patients or 61·9 per cent. of the recoveries were discharged after a residence in the Asylum of under 6 months.

The Deaths.—The Deaths numbered 62, 23 men and 39 women. The Death Rate on the daily average number resident was 6·6 per cent.

Senile Decay was the cause of death in 17·7 per cent. of the cases, General Paralysis of the Insane in 12·9 per cent. and Tuberculosis in 9·6 per cent. (as compared with 16 per cent. in 1913).

One male patient died at the advanced age of 93. 20 of the deaths or nearly 1/3rd occurred in persons over 70 years of age. The cause of death was verified by autopsy in 38·7 per cent. of the cases.

Inquests.—Three inquests were held during the year, one on a male patient who died suddenly, when exercising in the garden, from Arterio-Sclerosis, the second on a female patient who died suddenly during the night, a few days after admission, from Valvular Heart Disease, and the last on a female patient who hanged herself in a lavatory. In this case the Jury returned a verdict of "Suicide whilst of Unsound Mind."

In no case was any blame attached to the Nursing Staff.

The War.—Since the outbreak of the War the changes in the Staff have been considerable. Dr. Crowther, whom you had appointed to succeed Dr. Gayton on October 1st, 8 members of the Outdoor Staff, and as many as 59 per cent. of the Male Attendants, with commendable patriotism, enlisted. Of the attendants 12 were called out as members of the Army Reserve, 3 joined the Army as National Reservists and 12 volunteered for active service. The casualties up to the end of the year numbered 8, 1 killed, 2 wounded, 4 wounded and prisoners of war and 1 prisoner of war.

The news of the death of Dr. Crowther was received with deep regret here and cast quite a gloom over this Institution, where he was very popular amongst both patients and staff. A Memorial Service was held in the Asylum Chapel on November 11th and his relatives intend, with your permission, erecting here a permanent memorial to him.

It has been exceedingly difficult to adequately replace the male attendants who have left. Temporary attendants, mostly men who possess neither training nor experience, have been engaged and it is therefore pleasing to record that the extra burdens thrown in consequence on the shoulders of those of the permanent staff, who have remained behind, have been cheerfully and efficiently borne.

Escapes and Accidents.—Three patients escaped during the year but all were recaptured and brought back to the Asylum within 3 hours of making their escape. The following accidents occurred:—N.D., a female, accidentally fell in dormitory and fractured her left femur, S.A., male, accidentally fell in airing court and fractured two ribs on left side, A.W., female, fell and fractured her right wrist, and S.P., male, accidentally fell and fractured his right clavicle.

Visits.—Two members of the Board of Control visited the Asylum in April. Their report is appended.

Patients received here under contract from the Hants County Asylum and the Croydon Mental Hospital were visited by members of their Committees and deputations from the following Boards of Guardians also visited their respective patients in the Asylum:—Bermondsey, Stepney, Hackney, Wandsworth, Epsom, Godstone, Reigate, Croydon, Richmond and Dorking. All, without exception, expressed satisfaction with the care and treatment of their patients.

The Staff.—Apart from the changes in the Staff, consequent on the outbreak of War, the permanent staff has altered but little. You appointed Dr. L. M. Webber to the post of Senior Assistant Medical Officer on October 1st, but Dr. Moon, whom you appointed on November 14th to be Second Assistant Medical Officer only held office until December 10th, his services being requisitioned by the Admiralty. Miss Ray, the Matron, resigned her post on December 31st after thirty-one years' service, including twenty-two years at Brookwood and Netherne. Her retirement is a great loss to this Institution, and it is the earnest wish of all here that she may long be spared to enjoy her well-earned leisure.

Works Department.—The following works were carried out during the year:—

Construction of grain stores, loose box and messroom at Woodplace Farm, and making roads around farm buildings.

Erection of two verandahs at the North villa.

Extension to Boys' Court at the North villa, laying tar-paving and erecting swings.

Additions to medicine cupboards.

Construction of subway from Main Asylum to Private Hospital, and installation of steam and hot-water mains and apparatus for supplies to Private Hospital from central plant.

Installation of fuel economiser and alterations to corridors and subway, and erection of new covered way in connection therewith.

Alterations to male and female general bathrooms, and installation of spray bathing appliances.

Installation of heating battery in hot-water tank.

Formation of dental surgery.

Non-conducting casings applied to all uncovered hot-water piping in subways and wards, etc.

Bookcases provided for the Private Hospital.

Iron fencing erected between the courts at the Private Hospital.

Motor-driven potato-paring machine installed.

Conversion of fuel store into garage for motor conveyance.

Alterations to machine shop, and provision of guards in engine room.

Alterations to court w.c.'s.

Exterior painting to inner courts (female side), stores, yard and kitchen yard, Isolation Hospital, Cottages 2-12, 1-11, 13-19, Woodplace Farm House, 3 farm cottages.

Interior painting and papering of the Housekeeper's quarters, Isolation Hospital, male and female general bathrooms, Woodplace Farm House, 3 farm cottages, Cottages 21-13.

Varnishing defective work in male and female main corridors, male and female wards, nurses' home, female villa.

In addition the buildings and plant have been maintained in an efficient state.

General.—Fifteen male and fifteen female patients received here under contract from London County, and nine females under contract from Middlesex, were transferred during the year on expiration of their contract.

Mr. C. Colyer was appointed as Visiting Dentist, and entered upon his duties in June. You gave him permission to proceed on Active Service, and in November consented to the appointment of Mr. R. T. Pounds as *locum tenens* dentist.

The sports, pastimes and recreations of the patients comprised croquet, lawn tennis and cricket matches during the summer, and football matches and weekly concerts and dances in the winter months.

Medical, surgical and nursing lectures were given by the Medical Officers during the year. Eighteen nurses and ten attendants obtained the certificate of the St. John Ambulance Association; three nurses and three attendants passed the "Preliminary Examination" of the Medico-Psychological Association, and one nurse and two attendants the final examination.

There were no cases of seclusion, but three patients have been mechanically-restrained on fifty occasions, for a total of 1,129 hours.

The health of the Asylum has on the whole been good, but there were six cases of dysentery, one of which terminated fatally. A child of one of the artisans, resident on the Asylum estate, developed diphtheria on November 5th. She was at once notified to the Medical Officer of Health and removed to an infectious hospital. Fortunately the disease did not spread to the Asylum population.

The open-air verandah was completed on the female side, and was in constant use during the summer months. Two verandahs were erected at the North Villa.

Dr. Gayton's resignation, postponed owing to the exigencies of the War, took effect on January 31st of this year, and it has, in consequence, become my duty to review the events of the last year during which he was Medical Superintendent of this Asylum.

I have the honour to be,

Gentlemen,

Your obedient Servant,

P. C. COOMBES,

Medical Superintendent.

CHAPLAIN'S REPORT FOR 1914.

To the Chairman and Committee of the Surrey County Asylum.

NETHERNE ASYLUM,

January, 1915.

GENTLEMEN,

I have the honour to present to you my report for the year 1914.

Prayers have been said daily, and the patients have been regularly visited throughout the year.

On Sundays two full services have been held, and I gratefully record that several of the neighbouring clergy have again helped us by their presence and their sermons on special occasions. Since August, Intercession Services for our Sailors and Soldiers have been held on Sundays at intervals. At these services every man who has gone from this Institution to the Front is separately mentioned by name.

Holy Communion has been administered twice each month as well as on the greater festivals. Celebrations of Holy Communion are also now held in the Infirmarys on the first Saturday in each month.

Collections have been taken for the After-Care Association (£4 7s.), the South London Church Fund (£1 0s. 2d.), while that for the National Relief Fund on September 6th realised no less than £11.

During the period under review twenty-three patients were laid to rest in the Asylum Cemetery—all of them with the Rites of the Church of England.

The very real grief felt by staff and patients alike at the news of Dr. Crowther's death on active service found expression in a Memorial Service held here on November 11th. The service was attended by the Committee, many visitors being also present. An address was given from the lectern by the Chairman, H. M. Ellis, Esq., J.P., who eloquently voiced the feelings of all present.

The choir is naturally suffering by reason of the temporary absence of so many male members on active service. Just a week before the call came, however, we all enjoyed an outing to Brighton together, made possible by a kind vote of the Committee.

The Asylum library has been much enlarged and improved, and a separate library has now been established in the Private Hospital.

I gratefully record that I have received nothing but kindness and helpfulness from the Medical Officers and the whole Staff.

I have the honour to be,

Gentlemen,

Your obedient servant,

FRANCIS H. ROBERTS,

Chaplain.

ROMAN CATHOLIC CHAPLAIN'S REPORT.

THE PRESBYTERY,

CATERHAM,

June 3rd, 1915.

GENTLEMEN,

I have the honour to present my annual report as Roman Catholic Visiting Chaplain.

There are now about thirty Roman Catholic patients, the number having recently been increased by Chichester and Napsbury patients, and the number on the staff has decreased only by two males and three females—one male is in R.A.M.C. at front.

During past year I have held divine service every Sunday and Christmas Day; have attended all cases of sickness during the week, and have buried those who have died. Two other bodies had been removed by friends for interment elsewhere.

I have received every kindness from the Medical Officers and all the Staff.

Prompt notice has been sent in cases of sudden sickness.

I have the honour to remain,

Gentlemen,

Your faithful servant,

FRANCIS J. R. ROE,

R.C. Visiting Chaplain.

APPENDIX VI.

SURREY COUNTY ASYLUM,

NETHERNE, MERSTHAM,

22nd January, 1915.

REPORT OF THE COMMISSIONERS OF THE BOARD OF CONTROL.

Since our colleagues' visit in April of last year the following changes have occurred among the patients in this Asylum:—

	Male.	Female.	Total.
Admissions	74	103	177
Discharges or Removals ...	13	28	41
Discharges upon Recovery ...	19	37	56
Deaths	16	22	38

There are now on the books the names of 925 patients, 367 of whom are of the male and 558 of the female sex. Two being away on trial, there were to-day in residence 923 patients.

Owing to the outbreak of the War the changes in the Medical Staff foreshadowed in our colleagues' report have had to be very considerably modified. Dr. Crowther, who was appointed to succeed Dr. Gayton as Medical Superintendent from October 1st last, volunteered for active service, and we much regret to have to record that he was killed in action in Belgium about 18th October. The Committee have now appointed to the post of Medical Superintendent, Dr. Coombes, the Senior Assistant Medical Officer at Brookwood Asylum, who will take up his duties on February 1st. In the meantime Dr. Gayton has deferred his resignation till that date and we regret to hear that he is unwell, and he was unable to accompany us during our visit yesterday and to-day. In his absence we were accompanied by Dr. Webber, who showed a close knowledge of his cases and afforded us every assistance and information.

As many as 52 per cent. of the Male Attendants have enlisted, thereby showing a patriotic spirit which does them credit. It has, of course, been extremely difficult to provide adequately efficient substitutes to take their places, but we can say generally that the male patients appeared to be properly looked after.

We found the Asylum in very good order, the wards are bright and well kept, though we noticed that the supply of bound illustrated periodicals is still somewhat defective; the entire absence of fires in the Main Building gives an appearance of discomfort, especially in this wintry weather, and in some of the wards the temperature was only forty-six, which is much lower than it ought to be. The dormitories throughout were clean and airy, and the beds and bedding were in proper condition.

The patients generally presented a well-cared-for appearance, and we had no complaints worthy of mention; we think that the strong dresses worn by the most troublesome patients of both sexes might be much improved by using different materials and by paying more attention to the fitting. We were very pleased with the condition in which we found the juvenile patients who are detained at the North Villa; some few of them are, of course, capable of more training than can be given to them by the present staff, but the large majority who are of a low grade, some being very afflicted, are admirably looked after.

During the last few months spray baths have been systematically introduced into the Asylum; as is not unnatural the innovation is not very popular among some of the women; the curtains which used to separate the baths in the general bathroom on the female side have been removed. We are strongly of opinion that they should be partially replaced so that any woman desiring privacy can have it. A Dental Surgery has now been established with satisfactory results, and all the medicine cupboards have been supplied with separate partitions for poisons. Most of the recommendations of the Factory Inspector have received or are receiving attention.

The dinner yesterday consisted of boiled mutton with two vegetables and bread, and to-day of soup followed by plum pudding. The dietary appears to us to be good and sufficient.

The patients of the Private class are 94 in number, the majority of them being housed in the detached block intended for a Reception Hospital. There are 124 Out-County patients, most of these being received under contract from Hampshire, Middlesex and the Borough of Croydon.

There are vacancies for 15 patients on the male side and 12 on the female side.

The Maintenance charges are 10s. 6d. a week for Home patients, 14s. for Out-County patients, while the Private patients pay from 21s. to 42s.

There is no recorded use of seclusion, but two patients have been mechanically restrained on 47 occasions for a total of 1,100 hours by fingerless gloves to prevent them picking sores on their faces.

The general health of the Institution is good as is evidenced by the facts that notwithstanding the severity of the weather we found only 46 patients, or under 5 per cent. of the total number, confined to bed, and that a large proportion of these were merely aged feeble people or general paralytics. During the period under review there have been seven cases of dysentery, one of which terminated fatally, but beyond these there has been no instance of zymotic disease.

Two inquests have been held, one was on a woman who hanged herself in circumstances which were fully reported to our Board at the time. The other was on a woman who within a few days of her admission died suddenly from mania and valvular disease of the heart.

As regards the rest of the deaths the causes present no unusual features. In only 38 per cent. were they verified by post-mortem examination.

Casualties of at all a serious nature besides the one mentioned above have been limited to a fracture of the femur in a female, and fractures of two ribs in a male patient. In both instances the injuries were the result of accidental falls.

The annual returns made to our Board are generally satisfactory. We hope to see a considerable reduction in the number of patients able to walk, who are entirely confined to the wards and airing courts; at present the percentage is 42 per cent., a figure far in excess of the average and much too high for an asylum situated in the country. More patients might, we think, be employed to advantage on the farm and in the laundry.

The staff averages one to every 9.11 patients, and the duration of the service is under normal circumstances fairly satisfactory.

We were pleased to see that the case-books and other registers are written up to date.

(Signed) A. H. TREVOR,

E. MARRIOTT COOKE,

} Commissioners
of
the Board of
Control.
